

“The highest performing personal environments for any specification”

DesignOptions offers a freestanding modular system of furniture, giving customers total solutions for working and learning environments. Our Merit Desking System is the affordable and durable solution for your every day needs. Merit maximizes work areas by offering the unique corner overshelf unit. The corner overshelf allows uninterrupted worksurfaces while providing maximum overhead storage space. Merit ships fully assembled and offers a wide range of configurations and sizes using six unique building blocks; desks, bridges, returns, credenzas, corner connectors, and peninsulas.
