

FLAT SCREEN TRAINING TABLE

A training table complete with a flip top door that stores a flat screen monitor. The monitor door safely rotates the screen below the worksurface, freeing the table for other activities. The monitor door opens to a comfortable viewing angle and a keyboard drawer is included with a mousepad that extends to the left or right. Tables may be powered and include integrated wire management horizontally and vertically through legs.

*The Monitor door and keyboard drawer operate independently of one another.

Features:

- Key board drawer with a mouse pad that slides right or left.
- Wire manager stores cable from mouse and keyboard to monitor.
- One grommet; two grommets for 72" wide and wider models.
- Accomodates monitor size up to 16^{1/2}" X 13^{1/2}".
- Monitor door is standard on the left side of the work surface providing room for a CPU. (On 36" wide models, the maximum CPU width is 8").
- Tables are 27" deep and 28^{1/2}" high. Keyboard extends 7^{1/2}".
